DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Bendik et al.

Regarding claim 1, Bendik et al. discloses on figure 1 an apparatus comprising a circuit substrate comprising a single crystal semiconductor layer 46 having smallest dimension reduced (col. 4, lines 10-15); and circuit devices 50 formed in the single crystal layer.

The phrase “a single crystal semiconductor layer having a smallest dimension reduced” is a broad limitation and herein interpreted as the single crystal semiconductor layer being thinned to a certain thickness as disclosed in col.4, lines 10-15 of Bendik et al.

Regarding claim 2, Bendik et al. discloses on figure 1 the circuit substrate is formed as part of a composite structure comprising a removable support substrate 40 (col. 5, lines 44-46).

Regarding claim 3, Bendik et al. discloses on figure 1 the junction between the single crystal semiconductor layer and the removable support structure is an oxide 44.

Art Unit: 2815

Regarding claim 4, Bendik et al. discloses on figure 3 the circuit devices form integrated circuits 70b, 74 that interact with other electrical devices off the single crystal layer (col. 7, lines 29-31).
